Dear Mr

**A6034 SILSDEN RESERVOIR RETAINING WALL WORKS.
START OF WORKS**

You may be aware that the Council has arranged for the above work to be carried out. The work will be undertaken by Jagger Construction starting on 13 May 2019 or thereabouts and lasting for approximately 64 weeks.

The works will involve taking down the existing stonework retaining wall and reconstruction of a new mass fill concrete wall faced with stonework. The existing parapet wall shall be taken down and a new 450mm thick, 1200mm high masonry faced concrete infill parapet wall shall be rebuilt.

If you have any queries or complaints about the work, please contact Musheir El-Farra. It is important that problems are reported as they arise, so that they can be dealt with quickly. We strongly recommend not contacting other construction work people, as they may not have all the facts regarding the works.

We must point out that any private agreement which the Contractor makes with you (such as for access, storing materials, or providing other services) is not made on behalf of the Council. If any disputes arose, we would not be able to intervene and can only suggest that agreements be made in writing and signed by both parties.

This project will be supervised by Musheir El-Farra of City of Bradford MDC and he can be contacted on (tel. 01274 435892, e-mail; musheir.el-farra@bradford.gov.uk).

Yours faithfully

Musheir El-Farra
Senior Engineer (Structures)
